SKILLS

C, C++, java, PHP, JS, MySQL, HTML, CSS, AJAX, pug, BOOTSTRAP, NodeJS, ReactJs, Nextjs, ExpressJs, MongoDB

CORE STRENGTHS

- Front End
- Backend (LAMP & MERN stack)
- Social Media Marketing
- SEO
- Social Media Ads

ABOUT ME

A fourth-year undergrad CSE student well experienced with web development and exploring more in the field of software engineering. Much interested in software building and working in a team. So, searching for an internship and good surroundings to explore more with the help of others' experiences.

PROJECTS

TILLMARK(FULL STACK PROJECT)

Tillmark is an e-commerce site and my first full-stack project.

- We can create accounts, upload products(only for managers), search, add to cart, pay online on this site.
- Tech stack: HTML, Ajax, jQuery, CSS3, PHP, MYSQL
- Link https://tillmark.000webhostapp.com/

LEARNER'S REFINED(HACKATHON PROJECT)(MADE IN 2 DAYS)

- This was a team hackathon project and we built this site where teachers can create classrooms, assign assignments, send classroom code so that students can join, upload assignments, give anonymous feedback about the class, separate doubt forum for every classroom, students can book mentorship call, and events tab for extra-curricular.
- Tech stack: Bootstrap4, Ajax, jQuery, CSS3, PHP, MYSQL, Ckeditor4(Plugin)
- Link https://github.com/rajmunkhan/HackAcode

PICTIONARY(A MULTIPLAYER GAME)[HACKATHON WINING GAME]

- A Pictionary game where 2 friends can create a room and play together.
- Tech stack: nodeJs, expressJs, and Socket.io
- Link: https://hackers-glitch-pictionary.herokuapp.com/

OTHER FRONT END WORKS

- Portfolio
- Fast Delivery
- Grocery Api(expressJs and pug)

EXPERIENCE

Software Engineer Intern(Des 2021-Mar 2022): Paid Internship at MyCrib. MyCrib is a Malaysian-based startup and I worked as a NextJs developer.

EDUCATIONAL BACKGROUND

SRM Institute of Science and Technology Kattangalathur, Chennai Bachelor's Degree in Computer Science and Engineering, Degree anticipated by May 2023 CGPA: 8.94 (till 6th semester)
